## EXPERIENCE

---

### Freelancer

Aug. 2025 - Present

Upwork | Remote

- Delivered end-to-end web solutions for clients across multiple industries, managing the full lifecycle from requirements gathering and design to deployment and maintenance.
- Developed scalable full-stack applications using modern JavaScript frameworks, RESTful APIs, and microservice-based architectures.
- Provided technical consulting, refactored legacy code, and optimized system performance to improve reliability, scalability, and maintainability.

## EDUCATION

---

### 1337 Coding School | Software Developer

Oct. 2024 - Present

- Completed over 15+ real-world projects covering low-level programming in C, memory management, and data structures.
- Developed full-stack applications and implemented Docker containers, microservices, and RESTful APIs in later stages.
- Gained strong problem-solving skills, autonomy, and the ability to learn and adapt quickly in unfamiliar technical domains.

### Faculty Of Sciences And Techniques Marrakech | Bachelor in Hydrology

Sep. 2022 - Jun. 2024

- Completed specialized training in Water and Environmental Studies, preparing for professional integration or for pursuing advanced academic studies at the Master's and/or Doctoral level, nationally or internationally.
- Worked with Geographic Information Systems (GIS) to analyze and model geological data for the study of natural phenomena, supporting environmental assessment and decision-making through spatial analysis and data interpretation.
